- Incorporates BioGuard S2000 inhibiting the growth of mould.
- Pantone colour moulding, we can match any colour you need.
- Full wraparound printing in 8 colours.
- Usual Print lead time just 3 weeks

The cap

A brand new design eliminating the push pull valve on traditional bottles. Just drinking from the nozzle releases the liquid inside, when you stop the valve immediately stops the flow of liquid and seals shut.

- Valve system prevents cross contamination in team sports.
- Easy to use, even with gum shields. Perfect for sports.
- 65mm wide cap giving excellent access to bottle for filling, cleaning and ice cubes.
- Safety approved
- Eliminates the threat of choking apparent with push pull valves. Perfect for schools.
- Caps available in many colours and can be pantone matched
